EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: claims 14-25 have been cancelled.

2. The following is an examiner's statement of reasons for allowance: claims 1-13 and 26-27 are allowed because the prior art of record fails to teach a wet wipe that is dispersible in water that particularly comprises a binder composition with a cationic polymer and a wetting solution that contains at least 0.5 weight percent of a divalent metal salt. It is noted that the Bjorkquist et al. (US 6,127,593) reference cited on action mailed on February 6, 2003, provides a flushable fibrous structure comprising a binder with a polymer and a salt to provide the desired in-use and disposal wet strength characteristics for products such as toilet and facial tissue and paper towels. While some limitations of the present invention are taught by this reference, the inclusion of a wetting solution in the fibrous structure of Bjorkquist et al. would destroy it.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
